International Summerschool
Computer Vision for Cultural Heritage

Vienna University of Technology, Austria

Vienna, Austria, August 20th - 25th, 2007

http://www.prip.tuwien.ac.at/cvch07/

Martin Kampel and Robert Sablatnig

Guest Speakers
Jean-Angelo (Angelo) Beraldin, NRC Canada
Tomas Pajdla, CMP, Czech Technical University
Martin Sauerbier, ETH-Zurich

Important Dates

Application Deadline	May 31st, 2007
Notification of Acceptance	June 6th, 2007

Objectives

The purpose of the summer school is to bring together talented students from both image based sciences and Cultural Heritage research for a series of lectures and tutorials covering the current frontiers of applying computer vision technology to Cultural Heritage research. It is an excellent opportunity to share work and ideas with others.

Target Group of Participants

PhD students and young researchers
Advanced users of new sensor technologies and methods for Field Recording and Data Capture

Topics

- 3D scanning and plotting (3D plotter available)
- Project studies and experiences
- Visualization and Virtual Reconstructions
- High Resolution Multispectral Imaging
- 3D reconstruction, 3D surface modeling
- Data Organization and Data exchange
- Planning of heritage projects

Venue

It will be held at the Vienna Technical University of Vienna. The beautiful city of Vienna offers a wide range of tourist activities during the summer. In August it is the place to be !

Registration
